

SMART BIN
SB120L, SB240L

Flexible modular system

UTC Industries is a solar-powered trash compactor which can hold up to 5 times more waste compared to non-compacting bins, reducing collection frequency by up to 80%. It is compatible with standard 120L and 240L wheelie bins for easy and safe trash removal, and it also communicates information it collects in real time through wireless transmission to software, our cloud-based monitoring and data analytics platform.

UTC can be equipped with various optional features such as graphic wraps and a WiFi router.
